

How to Make an Amazon Wishlist

*On an iPhone or iPad

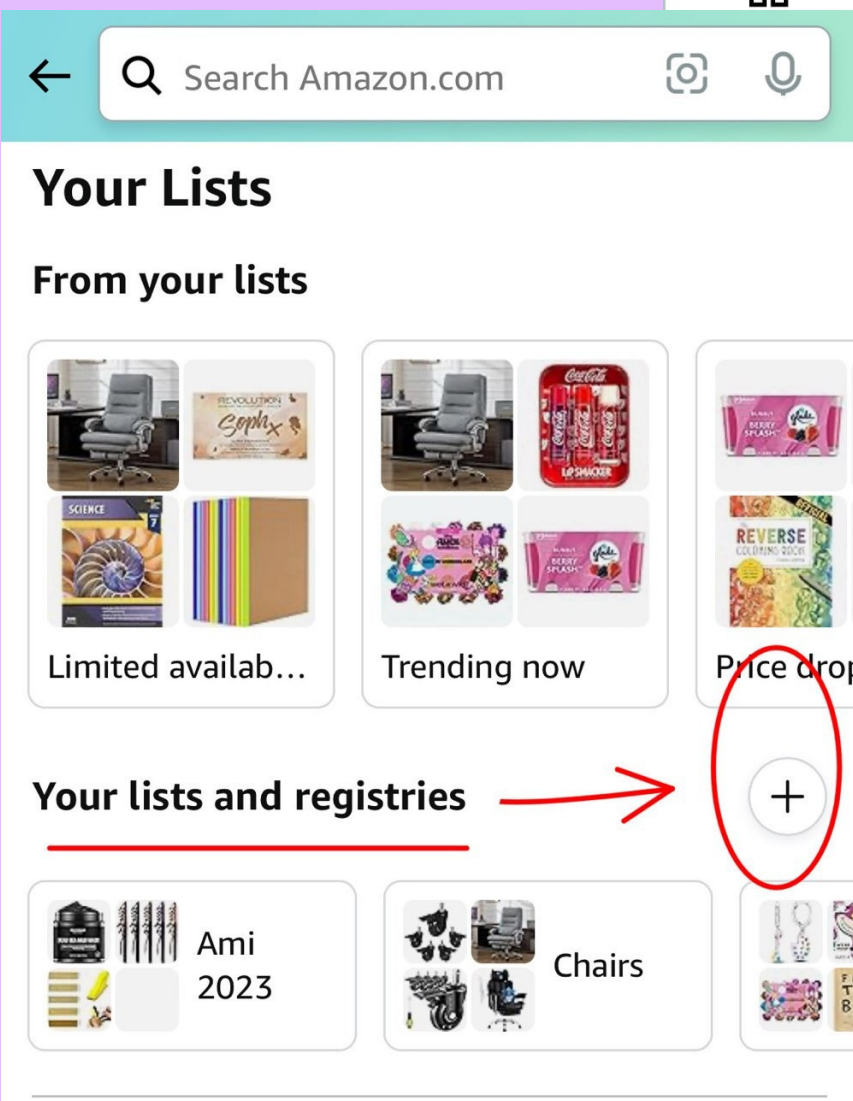

#1

Open your Amazon app, make sure you're signed in, and click the person icon at the bottom. Then, click "Your Lists" at the top of the screen.

#2

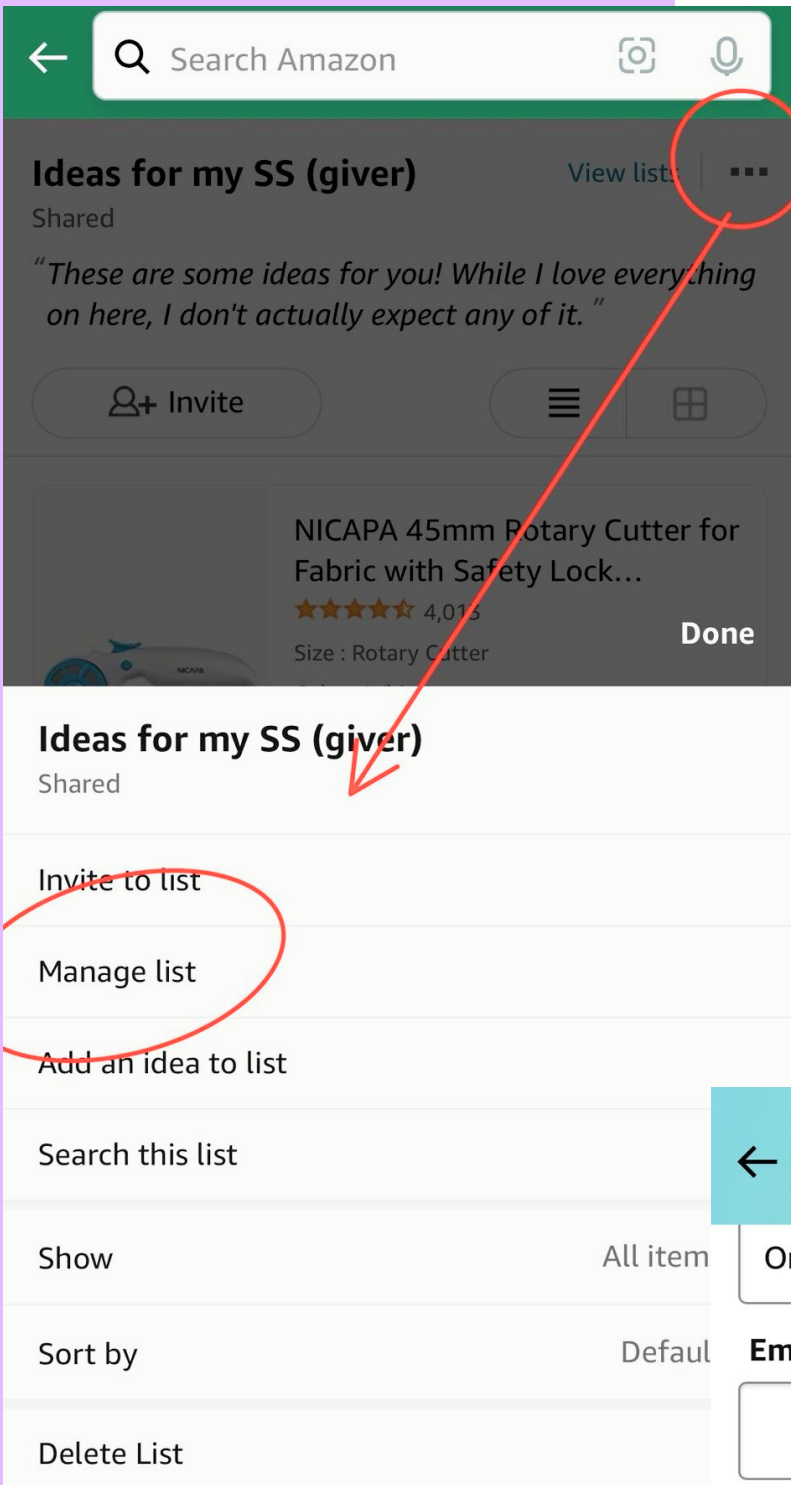

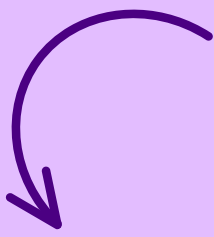

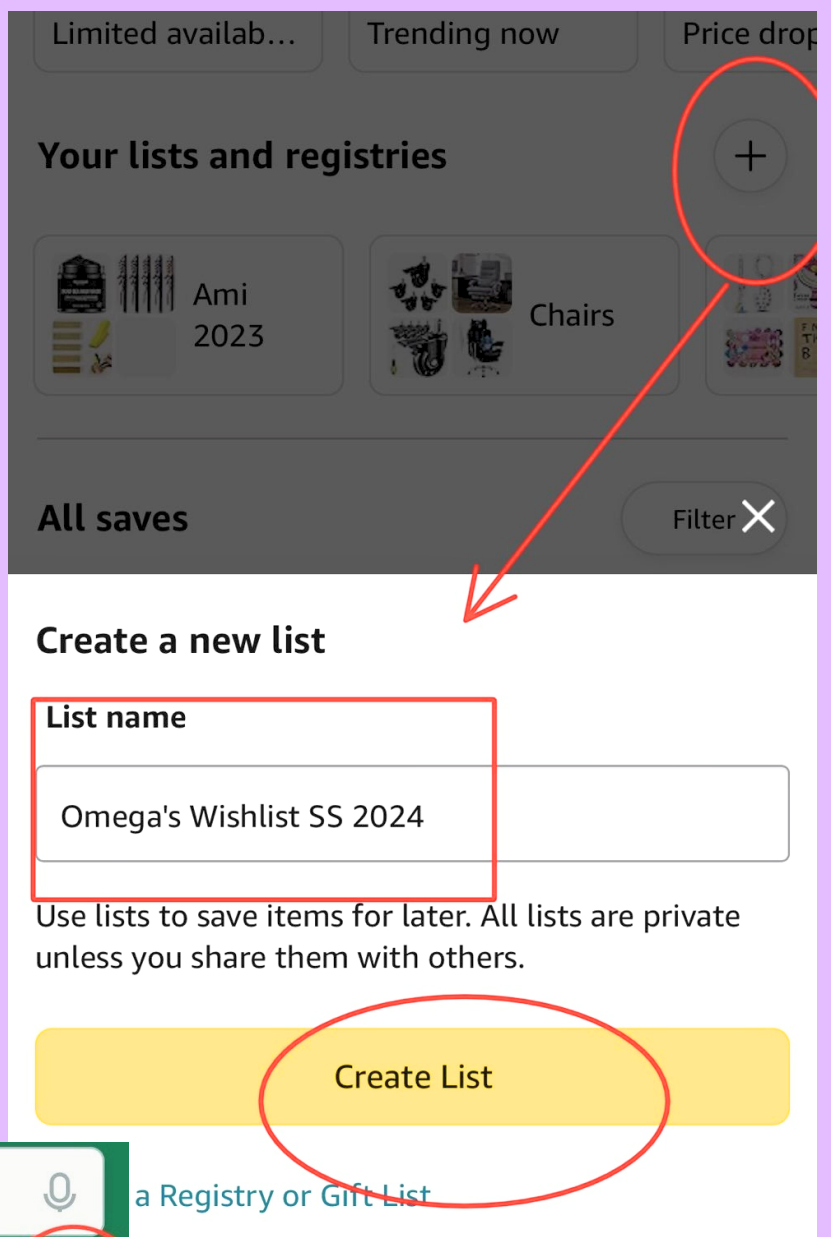

Now, hit the + sign to create a [new] list. (Yours might say "Create A List" if you've never created a list before.)

How to Make an Amazon Wishlist (Cont.)

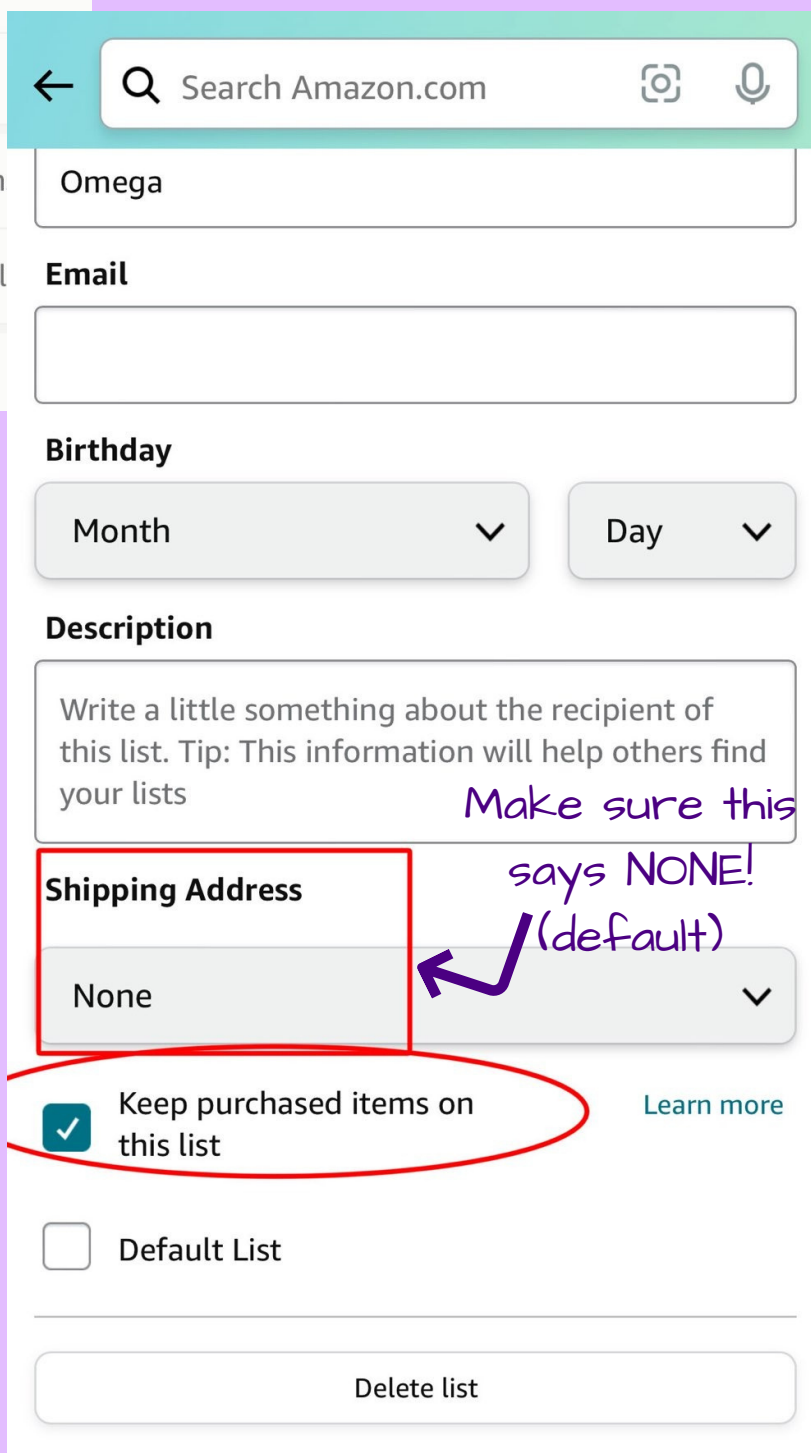

#3

After hitting the +, you will need to name your list, then hit "Create List."

#4

You are now on your (blank) list. Click on the 3 dots in the upper-right hand corner and then select "Manage List."

#5

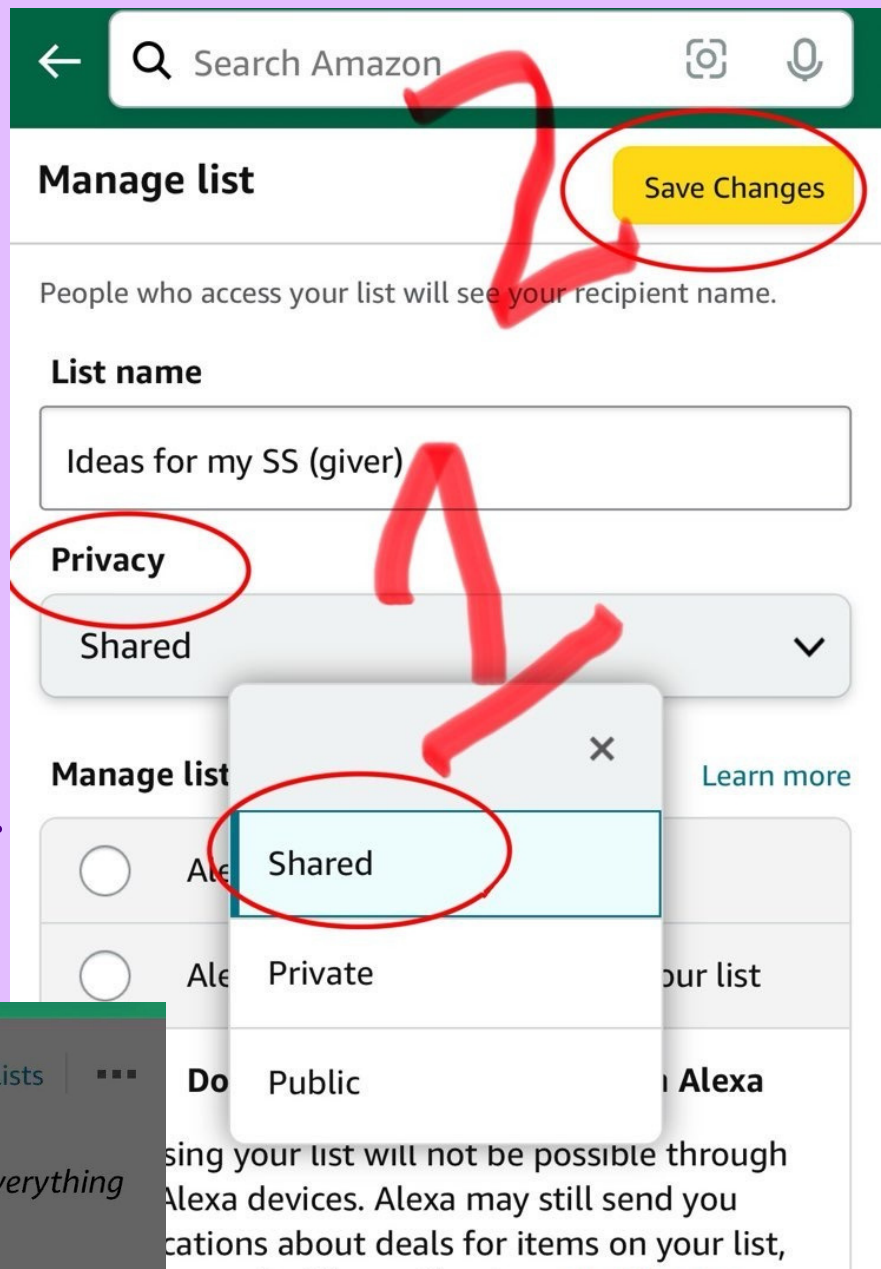

You will only change 2 settings. First, check "Keep Purchased Items On This List." This ensures your gifts will be a surprise.

#6

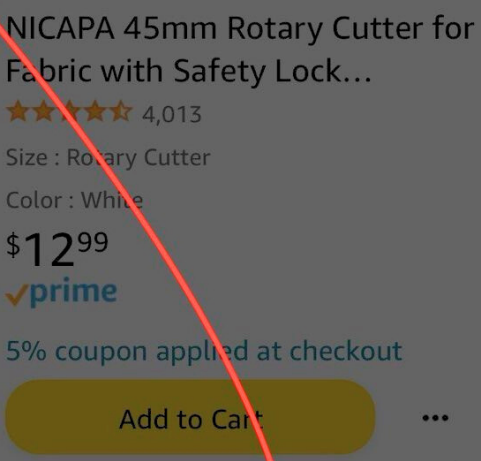

Second, change "Privacy" to "Shared."
(This allows you to share your link.)
Then, hit "SAVE CHANGES" at the top.

Ideas for my SS (giver)

Shared
"These are some ideas for you! While I love everything on here, I don't actually expect any of it."

Invite

Invite someone to

View only

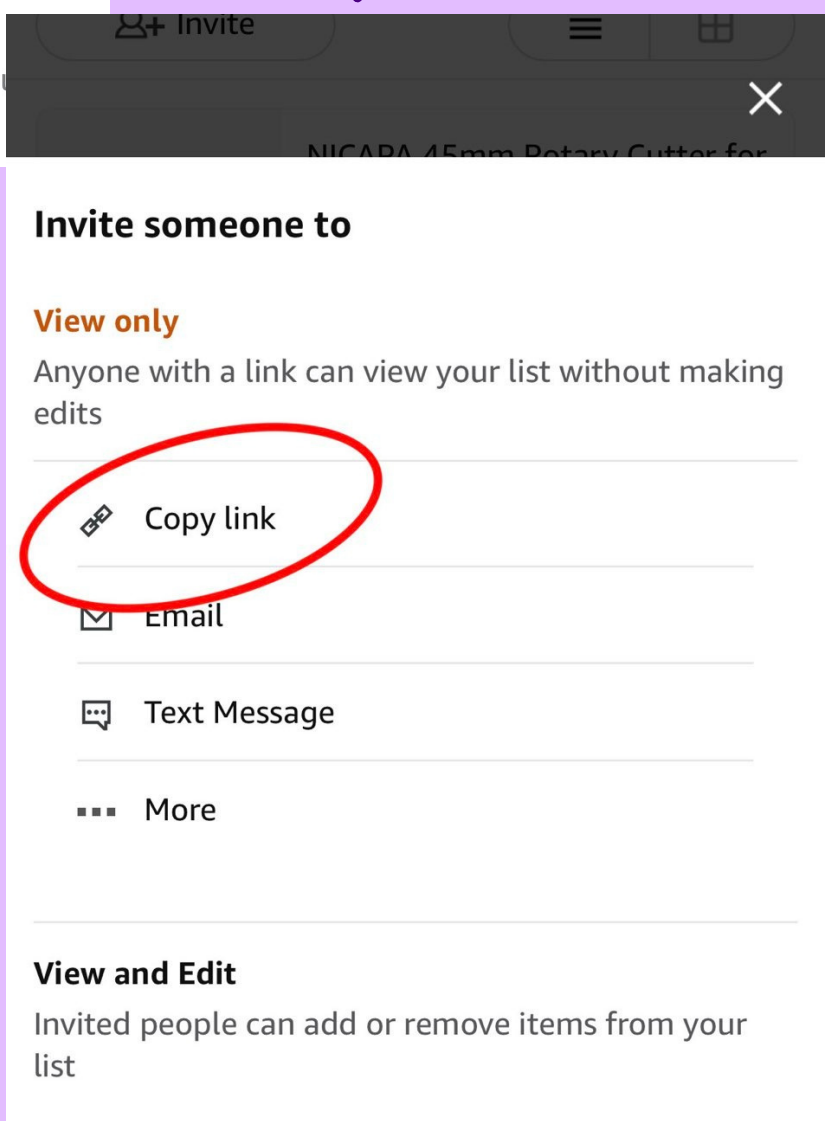

Anyone with a link can view your list without making edits

View and Edit

Invited people can add or remove items from your list

#7

Click "Invite" towards the top left. Next, select "View only."

#8

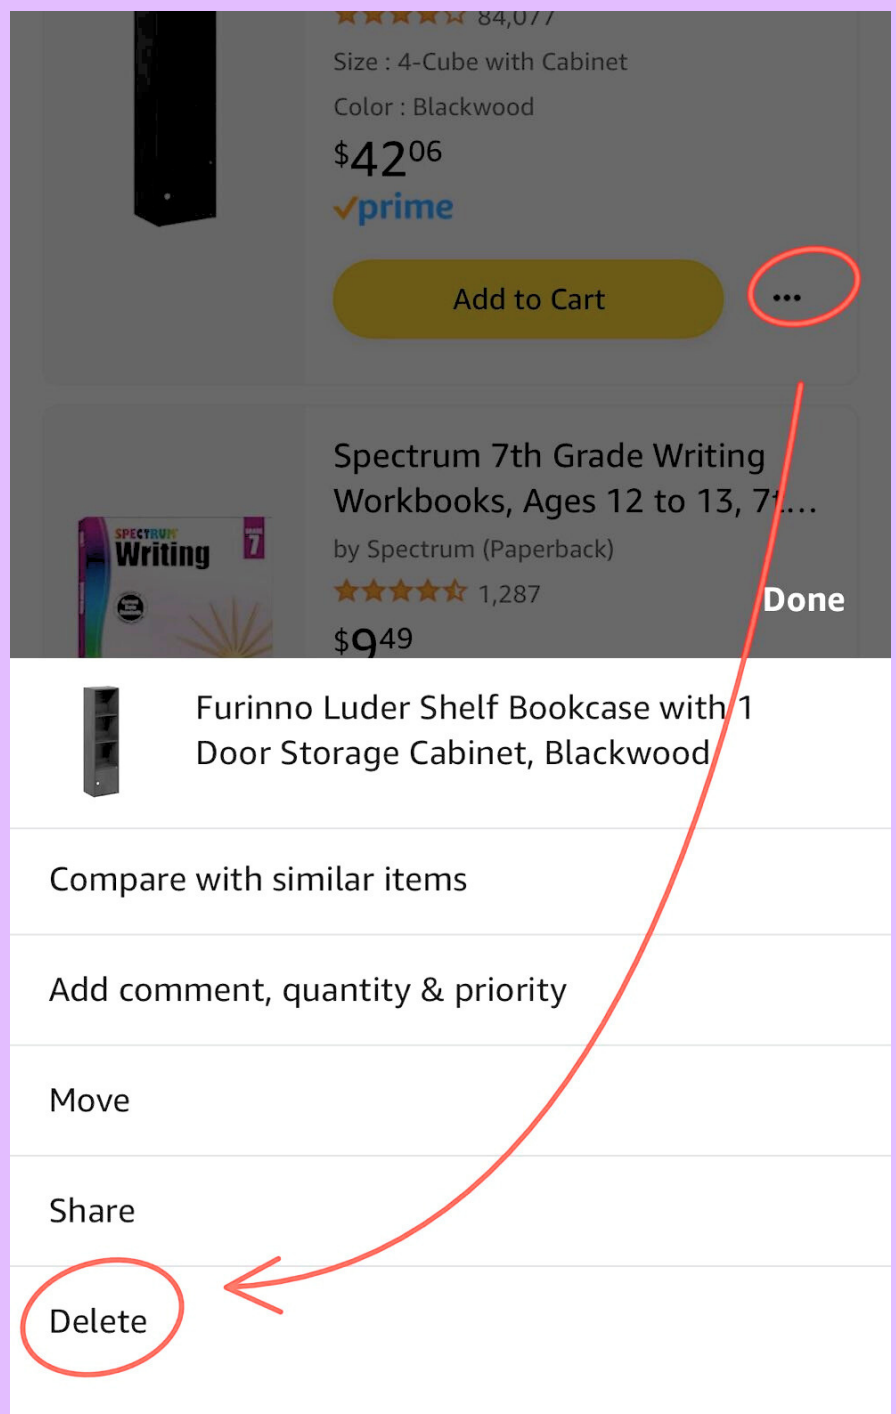

Click "Copy Link" for your link to your list to auto-copy. You can then paste it on your form or in an email to Omega.

Deleting

If you receive a gift off of your list, delete the item from your list. To do this, click the 3 dots to the right of the item on your list, then choose delete.

Other Wishlist Notes

- You can still provide a Wishlist link to your SS via your form or email to Omega even if your list is currently empty. - just don't leave it that way long!
- It's fine to have a long list; it gives your SS more to choose from. Make sure you have items that range from \$5-\$25; it's most important you include several items on the lower price end.
- It's a good idea to keep up with your list all year - delete things you no longer want/need and frequently add new things. (I use my list for both my SS and my family and constantly add things throughout the year that I would like. I do go through and "refine" it about once per month!)
- If you have any questions about your Amazon Wishlist, please ask Omega or another admin.
- If you need help creating a list on an Android phone, please ask Gemma.

Thank you!
